Mr. Larry Conti
Vice President-Operations and Gas Control
Questar Pipeline Company

CPF 5-2011-1010M

Dear Mr. Conti:

On May 9-13, 2011, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Questar Pipeline Company's (Questar) procedures in Salt Lake City, Utah. As a result of the inspection, Questar was issued a Notice of Amendment on November 21, 2011, which proposed amendment of your procedures.

Questar submitted its amended procedures on March 19, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
